Fire safety in the design, management and use of buildings ...

Building Regulation Approved Document B can be applied to more common building solutions, but can prove unacceptable for larger, more complex buildings. By taking a more holistic view to fire safety, BS 9999 allows compensatory measures to offset, e.g. travel distances and/ or total escape door width.

Fire safety - Approved Document B vs BS 9999 | NBS

The RIBA recommends that British Standards BS 9999, BS 9991, Approved Document B and BB100 are reviewed and revised in parallel, to ensure that all documents maintain the correct guidance and diagrams, to avoid conflicting information and provide clarity for users.
