### Ford Service Engine Soon Light

Ford Check Engine Light (CEL), also known as service engine soon (SES) warning, will stay on if a problem has been detected by the On-Board Diagnostic System (OBD-II). Under normal operation, Ford check engine light will turn on when you turn on the ignition but should turn off and stay off once you start the engine.

### Troubleshooting Ford Check Engine Light | YOUCANIC

If the Service Engine Soon indicator light stays lit after you've started the engine, the On Board Diagnostics system (OBD) has detected a malfunction of the vehicle emissions control system. Contact your authorized dealer as soon as possible. If indicator light is blinking, an engine misfire may be occurring, which could damage your catalytic converter.

### Warning Lamps and Indicators - Official Ford Owner Site

A "service engine soon" (SES) light is an easy way for your Ford's onboard computer system to bring potential engine problems or failing parts to your attention. However, once you have had the repair completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.

### How to Reset a Service Engine Light on a Ford | It Still Runs

Service Engine Soon Light Meaning. If the 'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems.
