This journal examines the intersection of local and global issues concerning economic conditions, race, ethnicity, and gender, along with policy prescriptions that address economic disparities. The journal publishes theoretical and empirical examining the economic outcomes of both public and private sector market forces on groups distinguished by racial, tribal, ethnic, gender, and linguistic differences.

Journal of Economics, Race, and Policy | Home

Inequality and Covid-19 Systemic racism has contributed to the persistence of race-based gaps that manifest in many different economic indicators. The starkest divides are in measures of household wealth, reflecting centuries of white privilege that have made it particularly difficult for people of color to achieve economic security.
